

projekt **KEMPELEN** Rozvíja kultúrne povedomie na stredných školách

Dear Sir/Madam,

*My name is **VELISLAVA IVANOVA IVANOVA** and I would like to apply for one month and a half internship in Bratislava, Slovakia. I am from Bulgaria- one of the biggest producers of rose oil in the world. It's a country in Southeastern Europe and is situated on Balkan Peninsula. To the north the country borders Rumania, to the east –the Black Sea, to the south-Turkey and Greece, and to the west-Yugoslavia and Macedonia.*

I am currently pursuing my master degree in International Tourism in Plovdiv University “Paisii Hilendarski”. I graduated Bulgarian and Greek language in the same university last year and this is my bachelor degree. I have worked as a teacher in my country and I have experience in the sphere of tourism. I have worked abroad as well, in USA and it was great and unforgettable time for me! My native language is Bulgarian. I speak fluent English and Greek language. I have 1st certificate in English from the University of Cambridge .My goal is to work in the sphere which I graduated, to improve my possibilities. I am very ambitious, enthusiastic and hard-working and I look forward to get more experience and practice in beautiful Slovakia.

My hobbies are travelling, photography, languages and literature, music (let me emphasize on classical music).I am good at photography because I've worked in an old time photo studio in USA.As for classical music, this was my major in my high school and languages and literature, my major in the university.

I believe that I will reveal to you all small secrets, wonders and challenges of travelling in my country, history, traditions, culture and modern life of our ancient and hospitable people and anything you might be interested to know and bring you in touch with the magic and charm of Bulgarian scenery. I am very happy I am coming in Slovakia and together let's take a closer look at my enchanting country!

I look forward to meeting all of you!

Best regards,

Velislava Ivanova
